PROFESSIONAL SUMMARY
Senior backend engineer with 10+ years of experience building distributed systems in Java and Python, specializing in scalable REST APIs and cloud-native architectures.

EXPERIENCE
Senior Software Engineer, Acme Cloud Systems | Jan 2021 - Present
- Led design and implementation of a microservices platform handling 50M+ requests/day
- Reduced p95 API latency by 40% through caching and query optimization
- Mentored a team of 5 engineers and led architecture review sessions
Software Engineer, Beta Systems Inc. | Jun 2018 - Dec 2020
- Built and maintained REST APIs serving the company's core billing platform
- Migrated a monolithic Java application to a set of containerized Spring Boot services
- Introduced automated integration tests, cutting regression bugs by half
Junior Developer — Gamma Software (2015-2018)
- Developed internal tooling for the QA team using Python
- Fixed production defects reported through the support queue
- Wrote unit tests for legacy modules with no prior coverage

SKILLS
Java, Python, Spring Boot, REST APIs, Distributed Systems, AWS, Kubernetes, Docker, PostgreSQL, MongoDB, Kafka, OAuth2, Keycloak, Git, CI/CD, Microservices, Terraform, Linux

EDUCATION
Bachelor of Science in Computer Science, University of Victoria (2011 - 2015)

CERTIFICATIONS
AWS Certified Solutions Architect - Associate, Amazon Web Services, 2022
Certified Kubernetes Administrator (CKA), Cloud Native Computing Foundation, 2023

VOLUNTEER EXPERIENCE
Mentor, Local Coding Bootcamp (2019-Present) - helped junior developers with career transitions.
